SNOW MELT

SOLUTIONS

A COMPLETE SYSTEM USING VIEGA® PRESS TECHNOLOGY

Reduce labor costs. With a radiant snow melt system, you'll no longer need shoveling, plowing and deicing labor, or materials. Easily clear walkways and driveways of dangerous snow and ice automatically with our highly engineered control systems.

No engineering team? No problem. Let the Viega engineering services team complete your next plumbing, radiant heating and cooling, or snow melt project. They'll provide a complete fitting material list, model, and cost comparisons for press vs. alternative installation methods to improve the labor efficiency and savings of your next project.

End-to-end solutions. Press fittings aren't just for hydronics. Complete your radiant and piping systems with Viega. ProPress®, MegaPress®, MegaPress® G and PureFlow® press fittings are approved for 2,500+ applications.

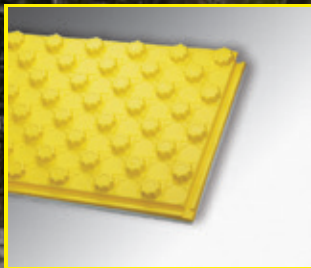

With no hot work, fire watches are unnecessary. That means there's no need for additional manpower, plus you can skip the messy and labor-intensive tools.

viega

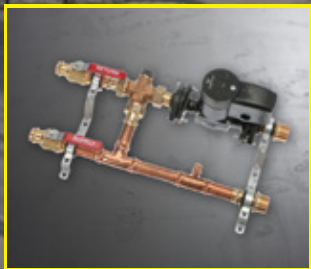

WI-FI SNOW MELT CONTROL

A state-of-the-art control that can be operated via an app available for Android and iOS. The app includes storm prediction via weather data, automatic software updates, and zoning.

RAPID GRID

An all-in-one insulated vapor barrier and grid system compatible with Viega Barrier PEX. Viega Rapid Grid serves as a fastener, insulation and vapor barrier and can reduce installation time.

HYDRONIC MIXING STATION

A highly engineered mixing station for supply temperature modulation. It features 7 settings including a permanent magnet motor design that reduces power consumption by 50%.

PROPRESS®

With thousands of approved applications and over 400 fitting variations, Viega ProPress is the proven solution for nearly any residential or commercial piping project. ProPress approved applications include hydronic systems, fuel oils, compressed air, steam and many more.

MEGAPRESS® G

Viega MegaPressG fittings are a safe and fast way to connect gas pipe. MegaPressG fittings are approved to make fuel supply connection to boiler or heating units and work with natural gas, propane, heating oil and diesel fuel.

BARRIER PEX

Barrier PEX is our premier solution for snow melt applications. Barrier PEX can also be used in continuously recirculating plumbing systems at temperatures of up to 140°F while still maintaining excellent chlorine resistance.

This document is subject to updates. For the most current Viega literature please visit www.viega.us The term Viega does not apply to a specific company within the various separate and distinct companies comprising the Viega group of companies. The term Viega as used in this publication refers to the Viega brand itself or generally to the Viega group of companies. References to activities in North America specifically refer to activities of Viega LLC. Viega products are designed to be installed by licensed and trained plumbing and mechanical professionals who are familiar with Viega products and their installation. Installation by non-professionals may void Viega LLC's warranty. ©2023, Viega®, MegaPress®, ProPress®, Smart Connect®, XL®, and Viega: Connected in quality® are trademarks of Viega Holding GmbH & Co.
