

Connected in quality.

RESIDENTIAL

SOLUTIONS

— SAFE, CONSISTENT CONNECTIONS

WITH VIEGA® PRESS TECHNOLOGY

Viega products can be pressed in seconds wet or dry, a significant time savings over traditional methods. There is no need to drain the full system and pressure tests can be performed immediately.

With no hot work, fire watches are unnecessary. That means there's no need for additional manpower, plus you can skip the messy or labor-intensive tools.

Quality you can depend on, tested to the limit. Viega ProPress and MegaPress systems have been tested for seismic certification in conjunction with ICC-ES AC 156, the most widely recognized testing procedure referenced in ASCE 7, the International Building Code (IBC), and Health Care Access and Information (HCAI).

Full suite of products to simplify your residential projects. Every PureFlow, ProPress, and MegaPress fitting and valve can be pressed with the same tool.

viega

PUREFLOW[®]

PEX PRESS SYSTEM

MECHANICAL PRESS CONNECTION

OPERATING TEMPERATURE: 180°F (POTABLE); 200°F (HYDRONIC)

PRESSURE: UP TO 160PSI

SIZE: 3/8" – 2"

Install with ease using the Viega PureFlow system. PureFlow is the only system in the industry offering press transition fittings, allowing transitions from PEX to copper in seconds with the same tool. Designed to meet strict potable water standards, PureFlow fittings, valves and tubing undergo rigorous testing for quality and performance.

PROPRESS[®]

COPPER PRESS SYSTEM

SEALING ELEMENTS: EPDM

OPERATING TEMPERATURE: 0°F TO 250°F

PRESSURE: 300PSI

SIZE: 1/2" – 4"

Viega ProPress systems have the most approvals of any copper press fitting system, with over 400 unique configurations available. Each fitting and valve is equipped with Smart Connect technology, allowing for easy identification of unpressed connections. Plus, there's no need for hot work, making Viega ProPress suitable for a wide range of projects.

MEGAPRESS[®] G

CARBON STEEL PRESS SYSTEM

SEALING ELEMENTS: HNBR

OPERATING TEMPERATURE: -40°F TO 180°F

PRESSURE: 125PSI

SCH: 10 - 40

SIZE: 1/2" – 4"

Viega MegaPressG fittings are a safe and fast way to connect gas pipe. MegaPressG press fittings and valves are easy to install, saving you time and labor, and are compatible with a wide range of approved applications, including natural gas and propane.

HEATING + COOLING[®]

RADIANT AND SNOW MELT SOLUTIONS

MATERIAL - PEX, POLYMER, STAINLESS STEEL, COPPER, AND BRONZE

SIZE: 5/16" - 2"

Radiant solutions offer an easy way to reduce energy costs for new construction and retrofit. Viega offers a full line of mixing, manifolds, sensors, and controls for snow melt, heating, and cooling applications.

In-Person Training

The Viega Training team provides a hands-on experience in well-equipped labs and seminar spaces for customers in Broomfield, CO and Nashua, NH.

Virtual Training

Can't make it to one of our Seminar Centers? No problem. Our trainers bring real-world experience and industry knowledge to your location via video call in a working session tailored to your needs.

Technical Support

Our Technical support team has you covered if you need quick answers to on-the-job questions. Each technician provides detailed troubleshooting and solutions to application questions.

On-Demand Accredited Courses

Contractors can get on-demand access to modules for continuing education, credentialing of Viega products and industry applications through the Viega eLearning portal.

Engineering Services

Our dedicated Engineering Services team maintains all Viega BIM content to support your project needs. The team works with various industry partners to ensure 3rd party content is current and accurate.

VIEGA® PRESS TECHNOLOGY

No other manufacturer can offer the same press technology across multiple piping systems.
