## — HELP SKILLED TRADES THRIVE WITH VIEGA® TRADES EDUCATION NETWORK

### **TRAINING HAS ALWAYS BEEN ONE OF VIEGA'S HIGHEST PRIORITIES**

Whether it's on the job site or in a classroom, Viega understands the value training provides to the plumbing, pipe fitting, heating and cooling industries. With a new generation of tradespeople in training, Viega recognizes a need to offer training on whole mechanical systems for students. That's why the Viega Trades Education Network (VTEN) was launched.

### **EDUCATION THAT GOES ABOVE AND BEYOND**

Without the proper tools, training is limited. That's why the VTEN program not only includes the necessary curriculum, but also the tools needed to complete each training. No other company provides resources and an all-in-one complete package to help students succeed in the trades industry.

### **GET EXPERIENCE INSTALLING INDUSTRY- LEADING PRESS FITTINGS**

Fitting Packages are supplied for 2-4 students to work together and are designed to demonstrate proficiency in press technology, end-to-end, center-to-center and end-to-center measurements while keeping the installation straight and plumb in a craftsman-like manner.
