## SOLUTIONS

### SAFE CONSISTENT CONNECTIONS

WITH VIEGA® PRESS TECHNOLOGY

**Viega products can be pressed in seconds wet or dry**, a significant time savings over traditional methods. There is no need to drain the full system and pressure tests can be performed immediately.

**With no hot work, fire watches are unnecessary.** That means there's no need for additional manpower, plus you can skip the messy or labor-intensive tools.

**Quality you can depend on, with faster connections.** Connections are made in 16 seconds or less, saving you up to 60-90% on installation time versus traditional methods.

**Viega press fittings offer safer and more consistent connections than traditional methods.** Unlike grooved and threaded connections, you don't have to jeopardize the integrity of the pipe to get a dependable connection.

## PROPRESS®

SEALING ELEMENTS: EPDM, FKM, HNBR  
MATERIAL: COPPER  
PRESSURE: 300PSI  
SIZE: ½" - 4"

Viega ProPress is the proven solution for nearly any industrial, commercial or residential project. With choices in sealing elements, system-matched tools, rings and jaws, press connections are made in seconds, making Viega ProPress suitable for virtually any type of project.

## MEGAPRESS®

SEALING ELEMENTS: FKM, HNBR, EPDM  
MATERIAL: CARBON STEEL, 304 STAINLESS or 316 STAINLESS  
PRESSURE: 200PSI  
SCH: 5 - 40  
SIZE: ½" - 4"

Ideal for facility utility needs, the Viega MegaPress system is easy to use, flameless, and reliable. Most often used for fire sprinklers, hydronics, and compressed air, MegaPress leaves no joining material buildup, exposed threads or tarnish, creating a clean, professional appearance.

## MEGAPRESS® G

SEALING ELEMENTS: HNBR  
MATERIAL: CARBON STEEL  
PRESSURE: 200PSI  
SCH: 5 - 40  
SIZE: ½" - 4"

Viega MegaPress G fittings are a safe and fast way to connect gas pipe. MegaPress G press fittings and valves are easy to install, saving you time and labor, and are compatible with a wide range of approved applications including natural gas and propane.

## PROPRESS® 316

SEALING ELEMENTS: EPDM, FKM, HNBR  
MATERIAL: 316 STAINLESS  
PRESSURE: 200PSI  
SIZE: ½" - 4"

Viega ProPress Stainless is engineered for harsh environments where the piping systems may come into contact with corrosive cleaning liquids. Available in 316 alloy, Viega ProPress stainless is a great option for water, air, acidic, and cleaning solution applications while being light and easy to work with.

Viega ProPress and MegaPress systems are approved for over 2,500 standard and non-standard applications. Visit [viega.us/commercial](http://viega.us/commercial) to learn more.
