Viega PureFlow® Multi-Clip

Model 2867.1US

Viega products are designed to be installed by licensed and trained plumbing and mechanical professionals who are familiar with Viega products and their installation. Installation by non-professionals may void Viega LLC’s warranty.

Multi-Clip Strut Clamp shall be used with 1 1/8” strut channel where it is necessary to insulate or secure tubing up to 2”. The clamp meets the requirements of ASTM E84 and is IAPMO certified. Ensure that the tubing can move freely to allow for expansion and contraction.

1. Insert strut clamp into top of channel.
2. Twist to lock clamp into place.
3. Lay pipe in base of clamp and ratchet the top bridge to secure tubing.

Additional bridges may be used as necessary to install or isolate multiple lines.

WARNING!
Installation with clip inverted is not recommended. The safe maximum working load in the inverted orientation is 25 lbs.
