Viega® Manifold Ball Valve Set

This document is subject to updates. For the most current Viega technical literature please visit www.viega.us.

Viega products are designed to be installed by licensed and trained plumbing and mechanical professionals who are familiar with Viega products and their installation. Installation by non-professionals may void Viega LLC’s warranty.

Description
Viega’s manifold ball valve sets are typically installed in conjunction with 1¼” stainless manifolds. These valve sets offer a fast and effective way to isolate manifolds from boiler piping.

Features
- Flat sealing face for use with 1¼” stainless steel manifolds
- Chrome plated ball
- Blow out proof stem
- Full port valve
- Max pressure 100 psi
- Max temp 200°F
- 1¼” BSPP x 1” FPT
- Double O-ring Stem Seal
- Each set includes two valves, one with red handle, one with blue handle

Expanded View Key
1. Forged brass nickel plated body
2. PTFE Seat Ring
3. Chrome Plated Ball
4. Forged Brass Nickel Plated Body End
5. Brass Stem
6. Buna Nitrile O-rings
7. Painted Aluminum Handle
8. Zinc plated Handle Screw

Part No. 15056
Typical Installation with 1¼" Stainless Manifold
