**Viega ManaBloc® UL Listed Access Panel**

**Description**

The Viega ManaBloc uninsulated UL rated access panel provides access through openings in fire-rated vertical surfaces while providing a concealed appearance. The panel is available in one size for use with a 30 port ManaBloc. It can be mounted between a standard 16" on center stud spacing (wood or steel type) and/or in a masonry wall. The access panel includes two external locking options which include the use of a flush key or knurled knobs.

**Features**

- 16 Gauge cold rolled steel frame
- 14 Gauge cold rolled steel door
- Baked on rust inhibitive gray prime finish
- Key or knob operated lock
- Spring door closure
- Flush continuous piano hinge

**Listings**

cULus listed “B” label for 1½ hours in vertical surfaces (maximum temperature rise to 250°F in 30 minutes)
