Testimonies

*With conventional copper fittings in larger sizes, it would take an hour per fitting to join them. With Viega ProPress, you can do a whole run of fittings in an hour.*
- Darrell Metcalf, Owner, Taps Plumbing

*Pressing with Viega is tremendously efficient versus brazing or soldering. We’ve tried other similar products and had issues with them or the quality wasn’t as good as ProPress.*
- Craig Hawkins, Project Executive, Brandt Construction

*ProPress is especially valuable in remodels. There is a lot less risk involved if you don’t have to light a torch, especially in buildings with old and flammable products. Installing ProPress, you’re going to get a better system than a soldered one. It’ll take less time to install, so it’ll be more competitively priced.*
- Jeremy James, President, James Plumbing Company

*Sweating large-diameter tubing on the roof in the sun and the wind is very cumbersome. Viega ProPress is the ideal way to go.*
- Carlos Fernandez-Alba, Ph.D. and Engineer, AET Solar
