

Viega ProPress® Zero Lead™ Ball Valves

viega

Introducing Viega Zero Lead ball valves

Only Viega offers a line of ball valves manufactured from a material specifically designed for Zero Lead press technology. Made from our unique silicon-bronze alloy, these ball valves provide the same quality, reliability and performance as all Viega press fittings. Installers can trust their connections with revolutionary Viega ProPress technology.

The patented Viega Smart Connect® feature helps installers easily identify unpressed connections during pressure testing. Available in sizes from ½" to 2",

Viega Zero Lead ball valves are designed for use in lead-free potable water systems.

- Zero Lead bronze body and connections
- A variety of configurations, P x P, P x FPT and P x Hose Thread
- 316 stainless steel ball
- Choice of P x P valve stem in Eco Brass® or stainless steel
- Certified to ASME A112.4.14-2004 and NSF-61G

Eco Brass® is a registered trademark of Chase Brass and Ingot Metal Co.

Zero Lead identifies Viega products meeting the lead-free requirements of NSF 61-G through testing under NSF/ANSI 372 (0.25% or less maximum weighted average lead content).
