PROPRESS®

Viega ProPress is the proven solution for nearly any industrial, commercial or residential project. With choices in sealing elements, system-matched tools, rings and jaws, press connections are made in seconds, making Viega ProPress suitable for many standard applications. ProPress copper fittings are available in sizes ½" to 4", and ProPress 316 stainless fittings and tubing are available in sizes ½" to 4".

PUREFLOW®

PureFlow is the only system in the industry that offers press-to-press transition fittings – allowing you to easily transition from PureFlow PEX to ProPress in traditional branch and tee installations. Looking to reduce the number of fittings behind the wall? PureFlow lets you install remote manifolds giving each fixture in a building its own PEX tubing line.

Viega's MegaPress carbon steel and stainless steel fittings are available with EPDM, FKM or HNBR sealing elements suitable for hundreds of applications including gas, hydronics, fire sprinkler, and compressed air.
