

# MEGAPRESS® VALVES

SAVE ON LABOR. SPEED UP REPAIR.

2010 +P

**viega**

# Approved. Available. Assured.

In the world of maintenance and repair, time is money. Viega MegaPress® 3-piece ball valves save you both. Available in sizes up to 4", Viega valves are engineered to withstand the harshest environments. And, unlike flanged or welded applications you can install without fire watch or bolt up kits.

## PRODUCT FEATURES

- Available in ½" to 4" configurations
- For use with carbon steel, 304 stainless steel and 316 stainless steel
- Wide range of approvals
- SmartConnect® technology
- Reinforced PTFE seats
- Adjustable packing nut
- Locking metal handle

### SAFER

Flameless connections eliminate the need for hot work permits and fire watch. Without open flames, other trades can work simultaneously and safely.

### EASIER

The three-piece body enables quick, simple repair and maintenance without having to replace the entire valve.

### BIGGER

Viega MegaPress 3-piece ball valves are the first of their kind to be available up to 4".

### SMARTER

Viega valves come equipped with Smart Connect technology to help you quickly identify unpressed connections.
