

# PROGRESS<sup>®</sup> VALVES

SECURE CONNECTIONS UP TO 4"

# LOCK IN.

The locking handle comes standard. The locking stem extension sets it apart. Viega ProPress® valves are now available up to 4" for all currently approved ProPress applications. And, with Smart Connect® technology, you'll know the press you just made was a perfect one.

## PRODUCT FEATURES

- Available in ½" to 4" configurations
- For use with copper tubing and stainless CTS pipe
- Locking handle comes standard
- Locking stem extension accessory
- Smart Connect technology identifies unpressed connections

### SAFER

Flameless connections eliminate the need for hot work permits and fire watch. Without open flames, other trades can work simultaneously and safely.

### FASTER

Save up to 90% more time versus traditional methods.

### BIGGER

Viega ProPress large diameter valves work with all currently approved ProPress applications.

### SMARTER

Viega valves come equipped with Smart Connect technology to help you quickly identify unpressed connections.
