

FOOD + BEVERAGE

SOLUTIONS

Connected in quality.

HUNGRY FOR UPTIME WITH VIEGA® PRESS TECHNOLOGY

A safe, simple install experience. Viega press systems are pressed within seconds, require minimal prep material and no open flame. Compared to traditional methods, the safety of press is seen and felt throughout the process, from the installer to the operators, resulting in a contamination-free end product.

Cost containment is the top of everyone's mind. Economic pressures and inflation weigh heavily on the Food & Beverage sector. Productivity and cost reduction measures are critical to remain profitable. Viega press systems are installed in seconds, keeping your lines producing and profits rising.

Improve labor utilization. Food & Beverage companies that are struggling with hiring and retaining skilled labor run the risk of missing deadlines, unplanned downtime, asset availability, maintenance backlog, quality upsets, and waste issues. The speed and reliability of Viega press systems mitigate these risks and protect against lost revenue and brand damage.

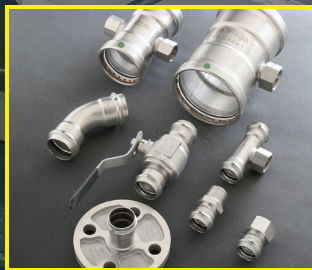

Quality you can trust. When your lines are up and running, you want to trust that things will continue to move smoothly. Viega press systems are manufactured in an ISO 9001 certified facility, resulting in high-quality, durable products. Our valves and fittings provide an alternative method to connect piping systems. Unmatched quality and tested under the most extreme conditions, Viega press systems are ready to meet the demands of your project and maintenance needs.

Trusted in over 2,500 approved applications. Approved Viega press fittings and valves give you confidence in every connection-no matter the media. From water and sanitizers to compressed air, natural gas, and glycol systems, you get proven reliability across the most demanding Food & Beverage applications.

PROPRESS® 316

SEALING ELEMENTS: EPDM, FKM, HNBR
MATERIAL: 316 STAINLESS
PRESSURE: 200PSI
SIZE: ½" – 4"

The preferred press solution for the food & beverage industry Viega ProPress stainless is engineered using hygienic friendly 316 alloys that stand up to washdown environments. Viega ProPress stainless is designed to copper tube size (CTS) and is a great option for water, air, acidic, and cleaning solution applications while being light and easy to work with.

MEGAPRESS® STAINLESS 304 + 316

SEALING ELEMENTS: FKM, EPDM
MATERIAL: 304 OR 316 STAINLESS
PRESSURE: 200PSI
SCH: 10 - 40
SIZE: ½" – 4"

Viega MegaPress stainless offers a solution from deionized and reverse osmosis water, sanitizers, safety showers, and more. Viega MegaPress stainless offers rugged durability, standing up to the toughest applications.

PROPRESS®

SEALING ELEMENTS: EPDM, FKM, HNBR
MATERIAL: COPPER
PRESSURE: 300PSI
SIZE: ½" – 4"

Viega ProPress is suitable for many food & beverage applications including plumbing and walkable ceiling with transitions to ProPress stainless for the production environment. As with any Viega press solution, connections are made in seconds, making Viega ProPress ideal for standard applications including office space, lavatories, water and air.

MEGAPRESS®

SEALING ELEMENTS: FKM, HNBR, EPDM
MATERIAL: CARBON STEEL
PRESSURE: 200PSI
SCH: 10 - 40
SIZE: ½" – 4"

Ideal for facility utility needs, the Viega MegaPress carbon steel system is consistent, flameless, and reliable. Most often used for natural gas, hydronics, and compressed air, MegaPress leaves no joining material buildup, exposed threads or tarnish, creating a clean professional appearance.

Viega ProPress and MegaPress systems are approved for over 2,500 standard and non-standard applications. Visit viega.us/industrial for more information.
