PULP + PAPER MILL

SOLUTIONS

— INCREASE PROFITABILITY WITH VIEGA® PRESS TECHNOLOGY

With no hot work, fire watches are unnecessary. That means a safer process without the need for supervision, plus you can skip the mess, fumes, and extensive equipment needed for traditional methods.

Viega products can be pressed in seconds wet or dry, a significant time savings over traditional methods. There is no need to drain the full system and pressure tests can be performed immediately.

Quality and reliable connections. Unlike groove or threaded connections that reduce pipe wall thickness, Viega fittings preserve pipe integrity. Our fittings come factory assembled for maximum consistency.

Save up to 90% on install time, reducing downtime and improving overall equipment effectiveness. Transform variable cost of labor into fixed material costs, making it easier and more accurate for time estimations.

MEGAPRESS® STAINLESS 304 + 316

SEALING ELEMENTS: FKM, EPDM
MATERIAL: 304 OR 316 STAINLESS
PRESSURE: 200PSI
SCH: 10 - 40
SIZE: ½" - 4"

Designed for Iron Pipe Size (IPS) stainless steel, Viega MegaPress stainless in 304 and 316 alloys supports more applications than ever before. MegaPress Stainless offers a full suite of corrosion resistant fitting configurations including valves. From potable water, to acids, and cleaning agents, Viega MegaPress stainless stands up to the toughest jobs while keeping appearance clean.

MEGAPRESS®

SEALING ELEMENTS: FKM, HNBR, EPDM
MATERIAL: CARBON STEEL
PRESSURE: 200PSI
SCH: 10 - 40
SIZE: ½" - 4"

Ideal for facility utility needs, the Viega MegaPress system is easy to use, flameless, and reliable. Most often used for natural gas, hydronics, and compressed air, MegaPress leaves no joining material buildup, exposed threads or tarnish, creating a clean professional appearance. Plus, with MegaPress press-in branch connectors, welded branch connections are a thing of the past.

PROPRESS® 316

SEALING ELEMENTS: FKM, EPDM
MATERIAL: 316 STAINLESS
PRESSURE: 200PSI
SIZE: ½" - 4"

Designed for Copper Tube Size (CTS) Viega ProPress Stainless is engineered for harsh industrial environments where the piping systems may come into contact with corrosive cleaning liquids. Available in 316 alloy, Viega ProPress stainless is a great option for water, air, acidic, and cleaning solution applications while being light and easy to work with.

PROPRESS®

SEALING ELEMENTS: EPDM, FKM
MATERIAL: COPPER
PRESSURE: 300PSI
SIZE: ½" - 4"

Viega ProPress is the proven solution for nearly any industrial, commercial or residential project. With choices in sealing elements, system-matched tools, rings and jaws, press connections are made in seconds, making Viega ProPress suitable for many standard applications and most often used for potable water.

Viega ProPress and MegaPress systems are approved for over 2,500 standard and non-standard applications. Visit viega.us/industrial for more information.
