

Connected in quality.

# HOSPITALITY

## SOLUTIONS

### SAFE, RELIABLE CONNECTIONS

WITH VIEGA® PRESS TECHNOLOGY

**Viega products can be pressed in seconds wet or dry**, a significant time savings over traditional methods. There is no need to drain the full system and pressure tests can be performed immediately.

**With no hot work, fire watches are unnecessary.** That means there's no need for additional manpower, plus you can skip the messy or labor-intensive tools.

**Quality you can depend on, tested to the limit.** Viega fittings were tested in 6 different seismic events in conjunction with ICC-ES AC 156, the most widely recognized testing procedure referenced in ASCE 7 and the International Building Code (IBC).

**Viega press fittings offer a variety of transition couplings to accommodate multiple piping materials** to harness the features and benefits each has to offer where local codes allow. Transitions from Copper to PEX offer flexibility and absorbs expansion & contraction.

**viega**

## PROPRESS®

SEALING ELEMENTS: EPDM, FKM, HNBR  
MATERIAL: COPPER  
PRESSURE: 300PSI  
SIZE: ½" – 4"

Viega ProPress is the proven solution for nearly any industrial, commercial or residential project. With choices in sealing elements, system-matched tools, rings and jaws, press connections are made in seconds, making Viega ProPress suitable for virtually any type of project.

## MEGAPRESS®

SEALING ELEMENTS: FKM, HNBR, EPDM  
MATERIAL: CARBON STEEL, 304 STAINLESS or 316 STAINLESS  
PRESSURE: 200PSI  
SCH: 5 - 40  
SIZE: ½" – 4"

Ideal for facility utility needs, the Viega MegaPress system is easy to use, flameless, and reliable. Most often used for natural gas, hydronics, and compressed air, MegaPress leaves no joining material buildup, exposed threads or tarnish, creating a clean, professional appearance.

## MEGAPRESS® G

SEALING ELEMENTS: HNBR  
MATERIAL: CARBON STEEL  
PRESSURE: 200PSI  
SCH: 5 - 40  
SIZE: ½" – 4"

Viega MegaPress G fittings are a safer, faster, and cleaner way to connect gas pipe. MegaPress G press fittings and valves are easy to install saving you time and labor, and are compatible with a wide range of approved applications including natural gas and propane.

## PUREFLOW®

MECHANICAL CONNECTION  
MATERIAL: PEX  
PRESSURE: UP TO 160PSI  
SIZE: 3/8" – 2"

PureFlow is the only system in the industry that offers press transition fittings – allowing you to easily transition from PEX to copper in traditional branch and tee installations. Looking to reduce the number of fittings behind the wall? PureFlow lets you install remote manifolds giving each fixture in a building its own PEX tubing line.

Keeping your hospitality facilities running 24/7 is vital; unplanned repairs and downtime can have a big impact on revenue and customer satisfaction. Optimize piping systems on your next hospitality project with the safety and security of Viega press fittings and valves.
