HOUSING SOLUTIONS

SAFE, CONSISTENT CONNECTIONS

PORTFOLIO VELOCITY, TOTAL ASSURANCE WITH VIEGA® PRESS TECHNOLOGY

Accelerate time-to-occupancy. Defend your critical path from schedule risk, delayed NOI, and compounding interest costs. From garden-style to high-rise assets, Viega systems routinely shorten plumbing schedule durations by up to 90%, helping you generate revenue faster and accelerate stabilization.

Overcome labor constraints. Insulate delivery milestones from sub-trade shortages by optimizing variable-skill crew productivity. Our intuitive platform keeps projects on schedule by preventing costly structural rework, avoiding inspection delays, and reducing carrying costs.

Mitigate jobsite risk. Eliminate capital liabilities and protect investor equity before drywall goes up. Our flame-free joining completely removes hot-work risks, while Smart Connect® technology enables quick visual identification and accurate pressure testing to reliably detect unpressed connections.

Single-source accountability. Maximize capitalization rates and satisfy rigorous REIT due diligence with a comprehensive mechanical system warranty that transfers across ownership changes. This unified manufacturer backing stabilizes asset value by reducing future work orders and tenant turnover.

Total building solutions. Standardize your mechanical footprint across metal and plastic zones to minimize SKUs, streamline training, and simplify bid packages. Sub-trades can transition instantly from high-diameter risers in mid-rise podium basements to flexible, in-unit PureFlow® PEX lines.

Complete Specification Support. De-risk preconstruction with a partner that backs your project from design to stabilization. Viega delivers complete technical support – including localized engineering design services, advanced material estimation, and turnkey on-site installer certification – to guarantee seamless execution across your entire portfolio footprint.

viega

The Viega PureFlow® system goes in a lot faster, especially with time-sensitive projects like this. Unlike every other style we've worked with [crimp, expansion], you're not dealing with the elements. It's just cut, press, [test] and go."

- Adam Fiedler, Plumbing Superintendent, Total Mechanical
Project Spotlight: 333 Water St. | Milwaukee, Wisconsin

Residential Unit-Level | In-Unit Living Spaces

Water damage is one of the most expensive risks during and after construction. When you use Viega systems from start to finish, you get a transferable warranty under one manufacturer with the added peace of mind that Smart Connect® technology ensures unpressed fittings are easily identified and corrected during initial installation testing.

LEARN MORE ABOUT PUREFLOW®

Commercial Kitchens | Mixed-Use / Retail Floor

Install a variety of Viega press systems using one tool to build out retail, restaurant, and residential utility spaces efficiently. Go from connecting heavy gas lines to securing water mains using the same press tool with a simple jaw swap. This helps you finish construction faster and start collecting rent sooner.

LEARN MORE ABOUT MEGAPRESS®

Mechanical Rooms | Mains & Risers

Confidence flows through every connection. With Viega's press system, contractors can install central boiler loops, water mains and gas risers up to 4" using a cleaner, safer method that helps reduce jobsite risk and support efficient project delivery.
