**Viega Eco Plus® Urinal Carrier**

# Caution. May turn heads.

viega.us/evolve

Welcome to the next evolution of toilet systems with in-wall flushing technology from Viega. Through precise German engineering, Viega offers a concealed flushing system that's simple to install, easy to maintain and reliable enough to withstand the test of time. By teaming up with world-renowned designers to develop a wide range of award-winning flush plates, Viega provides multiple options to create beautiful, functional bathroom spaces. Architects, builders and interior designers appreciate the space-saving minimalism and contemporary lines. Choose in-wall flushing technology from Viega, the industry-leading company you already know and trust.

## Viega Urinal Flushing Technology

Viega's urinal carriers can be paired with manual or touchless flush plates. The manual flush is triggered using an actuating panel and is the most popular style utilized. The infrared technology offers contact-free comfort for maximum hygiene. Viega offers a variety of solutions that are easy to maintain and clean.

### Features and benefits

**Manual flush**
- Simple assembly
- Great diversity of design
- Easy flush actuation
- ½" water supply

**Infrared technology**
- Automatic user recognition
- Program-able hygiene flush option
- Available in hard-wired or battery-powered versions
