

AVERAGE HOURLY COST OF UNPLANNED  
MANUFACTURING FACILITY DOWNTIME?

**\$260,000**  
**AN HOUR\***

**viega** | INDUSTRIAL SOLUTIONS

WE CAN HELP YOU **SAVE UP TO 90% ON INSTALL TIME\***  
WITH VIEGA'S PRESS TECHNOLOGY, WHICH OFFERS A FAST  
AND RELIABLE PIPE CONNECTION WITHOUT THE NEED FOR  
WELDING OR SOLDERING.

\*Downtime costs and install time savings based on empirical evidence.

### **GRIP RING**

Bi-directional teeth provide mechanical strength and securely lock the fitting to the pipe.

### **SEPARATOR RING**

Provides positive physical separation to protect the sealing element from the grip ring.

### **SEALING ELEMENT**

Elastomeric insurance behind the metal-to-metal contact compensates for small irregularities of pipe surface.

### **SMART CONNECT® TECHNOLOGY**

Easily identifies unpressed connections by allowing flow until pressed.
